

The Cambridge International Primary Programme

The Barclay College International also offer The Cambridge International Primary Programme framework from Grades 1 to 6.

There is a healthy emphasis on outstanding academic achievements balanced by nurturing character development for each individual student.

Cambridge Assessment International Education

Established in 1858, Cambridge Assessment International Education (CAIE) is the world's largest provider of international education programmes and qualifications that prepare students with the essential knowledge and skills to prosper in the real-world and at the same time, help them develop an informed curiosity and a lasting passion for learning.

Widely acknowledged as an international passport to progression and success, CAIE's international qualifications are recognised by leading universities and employers worldwide, giving students a broad spectrum of education and career options. As a not-for-profit organisation, CAIE devotes its resources to delivering high-quality educational programmes that aspire to unleash its learners' potential.

Setting the global standard for international education, CAIE's programmes and qualifications are created by subject experts who are rooted in academic rigour and as such, their educational materials reflect the latest educational research. Well supported by teaching and learning resources, CAIE's programmes and qualifications also provide a solid platform for learners to progress from one stage to another.

In addition, CAIE aims to provide educational benefits through the provision of international programmes and qualifications for school education, enabling learners to forge ahead as empowering global leaders across different sectors. Together with schools, CAIE seeks to equip and nurture Cambridge learners with positive and sought-after attributes in order to thrive and excel in today's modern world.

Programme Introduction

Laying a solid foundation for young learners, the Primary school years are a cardinal phase to help them obtain the knowledge and skills they need to excel in this modern society. Designed for International Students based on the Cambridge Primary curriculum frameworks, the **Cambridge Primary** course is a constitution of six (6) different programmes which will be conducted over a span of six (6) years.

As it is fundamental to guide and support young learners through their early educational process, this course aims to develop and hone learners' English literacy, Mathematics numeracy and Science reasoning abilities to a substantial degree through the core academic subjects – English, Mathematics, and Science. Along with these subjects, the following subjects, namely, Art, Physical Education, ICT, STEM, Music and Social Studies will be integrated into the CAIE

Primary curriculum. Students also have to choose one (1) of three (3) optional language subjects (Chinese, Malay, Tamil).

These subject areas provide learners with a good grounding in different fields of study and subsequently, they will be able to use this pool of knowledge across multiple contexts. Upon completion, learners will be well-equipped with the theoretical knowledge and practical skills for progression to the Cambridge International General Certificate of Secondary Education (IGCSE) Lower Secondary with Cambridge Lower Secondary Checkpoint.
